PROFESSIONAL SUMMARY

B.Tech student in Microelectronics and Semiconductor Engineering (CGPA 9.2/10) with hands-on Python and Flask backend experience, a Python Developer internship, and embedded projects that connect Arduino hardware to software over Bluetooth. Seeking software engineering and technical internships.

EDUCATION

SRM University-AP 2025 – 2029
B.Tech in Microelectronics and Semiconductor Engineering | CGPA: 9.2/10

TECHNICAL SKILLS

Programming: C, C++, Python
Web Development: HTML, CSS, JavaScript
Backend & Databases: Flask, SQL, SQLite, REST APIs
Embedded Systems: Arduino, Embedded C/C++, Bluetooth Communication
Tools: Git, GitHub, Linux, Arduino IDE
Computer Science: Object-Oriented Programming, Data Structures and Algorithms

INTERNSHIP EXPERIENCE

Codec Technologies Pvt. Ltd. — Python Developer Intern June 2026 – July 2026 | Remote

- Developed Python applications using object-oriented programming principles.
- Built backend functionality with Flask and integrated it with frontend pages.
- Tested and debugged code to resolve issues, and managed changes with Git and GitHub.
- Prepared project documentation.

PROJECTS

MuscleMind-AI | Python, Flask, SQLite, JavaScript, Groq API, Chart.js | GitHub, Live App

- Built an AI-powered fitness web app (Elite Coders Open Source Hackathon) with a Flask backend that generates personalized workout and diet plans through the Groq API (LLaMA 3.3 70B).
- Implemented progress tracking for weight, waist size, and notes with SQLite storage and interactive Chart.js charts, plus an AI fitness-coach Q&A page; deployed on PythonAnywhere.

Smart Light Controller | Arduino, C/C++, HC-05 Bluetooth, NeoPixel, Python, Flask | GitHub

- Built a Bluetooth-controlled addressable RGB LED system: a Python Flask web interface sends serial commands to an Arduino that drives the LEDs.
- Implemented endpoints for color selection, lighting effects (rainbow, fade, blink, party), brightness control (0–255), connection status, and reconnect handling.

LEADERSHIP

Class Representative — Microelectronics and Semiconductor Engineering, Section A

- Coordinate between faculty and students, relaying academic information and concerns.
